

Open PostDoc position (as full-time Assistant Professor) available in the Center for Human Computer Interaction at Kochi University of Technology, Japan

* Outline

The Center for Human Computer Interaction is offering a post-doc position (as full-time Assistant Professor) in User Interface Design, Natural User Interface (NUI), Mobile User Interface, and other areas in relation to HCI in the Center for Human Computer Interaction at Kochi University of Technology to carry out human computer interaction research.

* Content of work

Developing and generating novel research concepts, designs, direction, and outputs (in general, writing papers for publication in top-tier international journals and/or conferences) in areas related to Next Generation User Interfaces, such as Natural User Interfaces, Mobile User Interfaces, Game and User Engagement, etc.

The successful applicant is expected to be based full-time, as Assistant Professor at Kochi University of Technology, Japan.

*Qualifications

The applicant must have a PhD degree in computer science or a related subject, an outstanding track record in computer science, information technology and/or HCI. The applicant should demonstrate outstanding academic performance (e.g. good programming skills, strong knowledge of math and statistics, interaction technologies, e.g. Microsoft Kinect, eye tracking system, smartphones, etc.), research ability, communication and interpersonal skills, and demonstrated ability to work as part of a team as well as independently in the Center for Human Computer Interaction. The applicant must have strong ability in the English language (Japanese is a plus, but not essential).

*Remuneration

The position provides 3 years of salary support 4, 200,000, living allowance 300,000, and research funding 500,000, all Japan Yen, all per annum.

* Starting Date

The position to begin no later than October 1, 2014 and earlier start is preferred. Review of applications will start on April 26, 2014. Applications are accepted until the position is filled.

* Application process

Please email your CV, a description of research interests, a research plan in 3 years, and names and contact information of two references to info@xrenlab.com.
